The officials of the Navy Department Point report, makes the Academy at Annapolis suffer severely. Failing eyesight and heart trouble are the common complaints at Annapolis, and now the Special Board is going to find out why this is thus. To help the eyesight the entire lighting system of the Academy changed before the next year y begins. It is said that the Examining Board is convinced that the bad lighting of the Academy is the cause of failure of eyesight, which in turn has been the cause for the resigna-tion of several of the cadets of the class just graduated. If this proves to be true, it is more than likely that there will be some cause for heavy damages, for the eyesight of the young men was good when they were admitted to the Academy, and if it is proven that im-perfect facilities have caused weak eyes, then those who have for this reason been debarred from service which they have labored hard for will certainly have cause for damages. It is thought by some members of the Board that overzealousness in pursuit of athletic honors has made the hearts weak of the cadets. Whatever the cause, the Secretary of the Navy means to find out

> Secret Service men are just now very much stirred up over what is called a violation of the statute of the United States on "counterfeiting." A current magazine has invaded the sacred precincts of the money-making Depart-ment of the Government, and has on its cover a number of United States notes and bank bills in denominations of from \$1,000 to \$10,000. The Secret Service never troubles itself a bit, however, about the misuse of the Flag, the emblem of the power and authority of the United States Government. It can be used for a doormat, for vile adver-tisements, or to attest the excellence of tisements, or to attest the excellence of certain kinds of beer and whisky, and not a single Government official raises a voice against it. Lincoln's Gettysburg Address

THE ONLY AUTHORIZED OFFICIAL VERSION

War Department Design Reproduced on Handsome Postal Card A Beautiful Patriotic Souvenir Artistically Executed

In response to a request by the Grand Army of the Republic, Congress. has enacted that Lincoln's Immortal Gettysburg Address shall be placed on conspicuous tablets in every National Military Park and National Cemetery. The War Department has prepared the design for this tablet. It is exceed-

ingly beautiful, simple and effective. THE NATIONAL TRIBUNE has had the opportunity of being the first o reproduce this, and it now offers it in a handsome and artistically executed Postal Card, which will be welcomed by patriotic people everywhere,

It is the only absolutely correct version of the inspired words, which will be read with swelling hearts as long as the language is spoken. Other versions are marred by more or less trifling variations and errors which detract from the simple majesty of Lincoln's words. The text given is the result of long study and comparison of the various versions.
